

# FRONT LINE FIRE PROTECTION

R-102™ and PIRANHA® Restaurant Fire Suppression Systems

**ANSUL INTRODUCED THE CONCEPT OF AUTOMATIC RESTAURANT FIRE SUPPRESSION IN 1962, AT A TIME WHEN KITCHEN FIRES WERE ONE OF THE GREATEST CAUSES OF RESTAURANT LOSS. SINCE THEN, ADVANCES IN ENGINEERING AND MATERIALS TECHNOLOGY HAVE HELPED MAKE ANSUL RESTAURANT FIRE SUPPRESSION SYSTEMS THE #1 FOODSERVICE FIRE PROTECTION SOLUTION IN THE WORLD.**

# SERVING UP FIRE SUPPRESSION IS OUR FIRST ORDER

In today's commercial kitchens, higher temperature cooking oils and high-efficiency, slow-cooling appliances such as deep-fat fryers have combined to make fire suppression more challenging than in years past. But the fact remains: the need to protect people and property from fire is crucial. And the systems more foodservice operations trust to do this? The R-102™ and PIRANHA® Fire Suppression Systems from ANSUL, the leading brand in commercial kitchen fire suppression.

## SAFEGUARDING INVESTMENTS AROUND THE WORLD

The heart of ANSUL Restaurant Systems lies in their ability to quickly detect and suppress fires. ANSUL R-102 and PIRANHA systems use advanced extinguishing agents to ensure rapid flame knockdown and vapor securement. Cooling these high efficiency appliances after initial flame knockdown is critical to eliminating reflash and minimizing restaurant downtime.

**ONLY ONE NAME HAS BECOME SYNONYMOUS WITH FIRE SUPPRESSION THE WORLD OVER. ANSUL.**

# ANSUL® R-102™ FIRE SUPPRESSION SYSTEMS

ANSUL R-102 Fire Suppression Systems discharge ANSULEX® Liquid Fire Suppressant, quickly knocking down flames and cooling hot surfaces, while generating a tough vapor securing blanket that helps prevent reflash. With a nearly neutral pH, ANSUL R-102 systems are exceptionally friendly to cooking equipment.

ANSUL R-102 systems are offered in two basic designs: appliance-specific, in which nozzles are aimed at specific hazard areas of each appliance; and overlapping, where nozzles are arranged to overlap and provide a “fire-free zone” throughout a group of appliances. Depending on the kitchen line-up, your trained ANSUL distributor can design, install and service a system that offers the ultimate protection for specific facilities.

## **CUSTOMERS WHO BENEFIT FROM ANSUL R-102 SYSTEMS**

- **DINERS**
- **FAST-FOOD CHAINS**
- **RETAIL FOOD COURTS**
- **CONVENIENCE STORES**
- **HOTEL KITCHENS**
- **SCHOOL, COLLEGE  
AND UNIVERSITY  
CAFETERIAS**

# ANSUL® PIRANHA® FIRE SUPPRESSION SYSTEMS

The only agent-plus-water fire suppression hybrid on the market today, ANSUL PIRANHA systems outperform all conventional single-agent systems on a number of fronts. ANSUL PIRANHA systems attack fire using the rapid flame knockdown and securing capabilities of PRX™ Liquid Fire Suppressant. Then, the superior cooling effects of water follow, quickly cooling the cooking media and further helping to prevent reflash.

In UL300 testing, the ANSUL PIRANHA system cooled hot grease 15 times faster than single-agent wet systems, required 60% less chemical agent, covered hazard areas better and provided a cost-effective means to protect the cooking equipment.

ANSUL PIRANHA systems are also available with fully self-contained water units to simplify installation. The Self-Contained Water Supply offers three minutes of water discharge to help assure hot oils and greases remain well below re-ignition temperatures.

ANSUL PIRANHA systems are available in various sizes that can be combined for multiple configurations to expand the suppression system coverage. Depending on your type of facility, your ANSUL PIRANHA distributor will design a system that offers you the ultimate in fire protection.

## **CUSTOMERS WHO BENEFIT FROM ANSUL PIRANHA SYSTEMS**

- **CASUAL & FINE DINING**
- **FAST-FOOD CHAINS**
- **CULINARY SCHOOLS**
- **SPORTS COMPLEXES &  
STADIUMS**
- **FOUR- AND FIVE-STAR  
LODGING FACILITIES**

# PIRANHA SYSTEMS

**PRX™ LIQUID FIRE SUPPRESSANT ■ OVERLAPPING PROTECTION**

**TWO BASIC DESIGNS WITH PROVEN FUSIBLE-LINK DETECTION AND RELEASE SYSTEMS**

**HYBRID DUAL-AGENT CONCEPT ■ STAINLESS STEEL ENCLOSURES**

**APPROVED AND LISTED UL300 AND 2092; ULC C1254.6; ASSE 1001; AND IAPMO PS108-98**

**FIVE-YEAR LIMITED WARRANTY ■ OPTIONAL SELF-CONTAINED WATER SUPPLY**

**ANSUL K-GUARD® EXTINGUISHER FOR MANUAL BACKUP**

ANSUL K-GUARD fire extinguishers use the same wet chemical agent as is used in the R-102 Suppression System. This agent is designed for use on fires that involve vegetable oil or animal fats in commercial cooking equipment. Should fire occur in the kitchen, the fire suppression system must be activated first, and the K-GUARD hand portable extinguisher used as a backup.
